Thank you for purchasing my asset!!!

Your feedback motivates me to create new assets and modify them.

1) Use this tool. It will allow you to quickly connect modules. For internal modules, use "Move" 0.1

2) In the package manager, download these tools. They will allow you to use flexibly work with terrain

and configure post processing

3) In order for the doors to work it is necessary to pull out this element in the scene. And enable Tag Player on your character Thanks for your attention!!!
